A wealth of experience was passed on by those who believed in us allowing the birth of Miscela d'Oro USA, a reality well present and rooted in America **for over 20 years**.

All this is Miscela d'Oro USA.

FOOD SERVICE ESPRESSO

Espresso as pioneered by Italy

MADE IN ITALY

A symbol of Italy in the world, espresso is much more than simply brewing any coffee with an espresso machine.

It is the fruit of **knowledge, traditions and experience** that have been adamantly guarded in the culture of Italian coffee roasters for more than a century. Miscela d'Oro, artisan coffee, thanks to the invaluable **experience of its master roasters** offers coffee blends of the **highest quality**, respectful of the cultural tradition of Southern Italy where true Italian espresso finds its origins.

Thanks to an extremely advanced packaging system, our coffee blends remain protected in a nitrogen-saturated environment (residual oxygen less than 0.5%). The coffee ripens gently, ensuring all the aroma and freshness of freshly roasted coffee.
